

# Her Film Grain

Abbey Erickson, Film Photographer

---

## What I Offer

- **Photography Services:** Whether it's portraits, couples, or group photos, I capture your moments with the grainy, nostalgic texture of film.
- **Film Variety:** I work with different Kodak and Ilford films, each offering unique tones. The film type is hand-picked based on your wants and needs for your shoot.
- **Turnaround Time:** Digital scans are delivered within 1-2 weeks.

## Where to View My Work

My photos are organized into three simple galleries on my website:

- **People-** portraits and personal moments shared with others
- **Places-** landscapes and environments
- **Things-** the little details and textures

You can also follow along on Instagram: @herfilmgrain
